

Teaching On-Line with ONE Tablet PC

Handwritten feedback on homework and tests

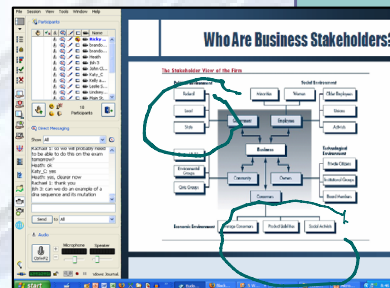

Produce and post annotated course videos with Camtasia

Archived notes enhance course readings

Virtual office hours in Elluminate

#10

Provide handwritten feedback on homework and tests.

"The paper-grading feature of the Tablet PC was useful because it allowed for immediate, direct feedback, which is what I would expect in any classroom course. It facilitated distance learning." - Student Comment

Produce and post annotated course videos with Camtasia.

"I downloaded and watched posted videos to focus on and understand issues where the book was vague." - Student Comment

Enhance course readings with archived notes.

"The archived notes and videos help enforce the reading." - Student Comment

Conduct virtual office hours and study sessions in Elluminate using Tablet technology to illustrate course concepts.

"This was my first experience with Elluminate and the Tablet PC. I feel that both were beneficial in the internet classroom environment." - Student Comment
